

## OTHER ASTERISKS

Other asterisks are small (4cm/1.5”) circular mirrors, installed on trees at a height as high as I can reach. They are placed one per hour over the course of a daylong walking.

Other asterisks cannot be acquired as such; rather, to purchase them is to encourage walking – to abet their installation along walking routes. Which is to say that other asterisks are available for non-profitable investment, in multiples of seven (i.e., per day).

While the pledge amount per asterisk is at the sponsor’s discretion, a suggested calculation is your pre-tax annual income divided by 2000, or a sum equal to your hourly wage.

50% of the expense will be donated for land preservation.  
A particular land trust may be specified if desired.

The site of the walking may be specified if desired. If long-distance transportation is required in order to reach the walking site, then a minimum of thirty-five asterisks must be purchased, and travel expenses provided.

Installation of your other asterisks will be soon after receipt of payment, unless otherwise agreed upon, or if the given site is distant from my then-present location. They are fastened with aluminum nails with space allowed for tree growth (standard practice for long-term tree identification tags in arboretums).

You will receive a certificate of authenticity specifying the quantity and whereabouts of your other asterisks.

Other asterisks may be dedicated as a gift.
